To Whom it may concern: Trees Done

We first started using Trees Done for our tree work back in 2017.

We found their work to be of an extremely high standard, so much that we use them on a regular basis to conduct any type of arborist work we need doing.

We found the Owner, Shawn to be extremely knowledgeable with all our tree types, and what needed to happen with them to keep them in supreme condition.

Their team were very efficient in the work they did, as well as leaving the property in a clean state upon completion of the work, which is very important to us. We found they used the appropriate safety equipment where required.

We would recommend Trees Done to any person or organisation. I'm sure you will be as impressed with their overall service as we were.

Please contact me should you require further information

Yours Sincerely
